Summary

Hi! I'm an 18 year old college student at the University of Wisconsin-Madison studying computer science and statistics. I'm currently working as a software engineering intern at WellRight- a corporate wellness startup in Chicago. I'm passionate about software engineering and all types of investing.

Experience

Software Engineer Intern

WellRight, LLC • Chicago, Illinois

Present

- Developed administrative support web application that aided in the management of translations on the WellRight platform
- Built support app using Angular with Typescript, AWS Amplify, and NRWL to build administrative support app
- Participated in two week agile sprints as part of platform software development team
- Regularly upgraded pages from old Angular versions to current production version

Analyst

Elev Labs • Colorado Springs, Colorado

08/2020 - Present

- Analyst working to evaluate deal flow and applications to the Elev Labs incubator/accelerator.
- Elev Labs serves to support student ventures which have been historically neglected by traditional industries.

Intern

We All Code • Chicago, Illinois

06/2020 - 08/2020

- Developed curriculum for the JavaScript 2 course which will be used to further students' understanding of programming fundamentals.
 - Aided in managing the grant pipeline and contacting corporations for non-profit support.
 - Helped to run two one-week summer camps that taught a small group of students the process of building a simple game using HTML, CSS, and JS.
-

Education

Computer Science

University of Wisconsin - Madison • Madison, Wisconsin

05/2024

Currently completing courses in computer science and plan on double majoring in statistics.

High School Diploma

Lyons Township High School • La Grange, Illinois

05/2020

- 4.74 GPA
- President of programming club. Led and advised on club projects. Developed new relationship with HackClub which resulted in a recurring grant from GitHub.
- In conjunction with my Physics teacher, I developed curriculum for physics classes that integrated basic programming skills into physics labs using a Sphero robot.
